

Active Shooter Coverage

It's not uncommon for active shooting victims or their surviving family members to file a lawsuit against the employer, claiming that it didn't do enough to prevent or mitigate the incident.

With the escalation of active shooter incidents in our workplaces, schools, churches, and other public gathering spots, we hear a great deal about the injuries and deaths that result from these tragic situations. What doesn't get as much attention is the financial impact that these events have on the institutions where they occur.

Active shooter liability insurance can help an organization protect its assets in the wake of a shooting incident. However, many carriers don't provide this coverage due to the significant risk exposure. Prime Insurance Company does.

Prime provides Active Shooter Liability Coverage as an optional policy enhancement for third party liability. While other companies are tightening guidelines, Prime is creating solutions and willing to offer this coverage to ensure businesses don't have blind spots/gaps in coverage.

Prime's **coverage** enhances your existing liability insurance policy through Prime Insurance Company and is designed to provide you the peace-of-mind to conduct business with the public in today's uncertain times.

Some of the coverage highlights include:

- Limits of liability customized to your business needs up to your underlying policy limits.
- Best-in-Class claims handling through Claims Direct Access.
- Must have or must obtain a Prime Insurance Company **Commercial Liability policy** in order to add this **coverage**.
- Protect your business and your bottom line with Prime's Active Shooter Liability Coverage.

We don't compete with other insurance carriers but are here to provide coverage when it can't be found anywhere else.

Prime Insurance Company ("PIC") is an excess and surplus lines insurance company domiciled in the State of Illinois and its principal place of business is in Sandy, Utah. Full disclaimer at www.primeis.com/legal.
